

## Finance Corporation Aids Western Farmers In Overcoming Difficulties

Montreal, Que.—Announcement was made here Saturday, April 15, an application of the Canadian Pacific Railway Company for membership in the Colonization Finance Corporation of Canada, Limited, has been accepted at an executive meeting of the latter organization in Toronto.

Entrance of the railway as a member company carries with it opportunity of placing a limited number of its land contracts requiring closer supervision and farm management in Manitoba and eastern Saskatchewan under the management of the Colonization Finance Corporation. The corporation was organized some five years ago to co-operate with the western farmer in overcoming difficulties with which agriculture had had to contend in recent years.

At present the farm management department of the corporation consists of a chief farm manager and 14 zone farm managers. They have under their management about 1,400 farms aggregating nearly 500,000 acres in Manitoba and eastern Saskatchewan, 80 per cent. occupied by the owners.

"By reason of the success so far attained by the Colonization Finance Corporation," said E. W. Beatty, K.C., chairman and president, Canadian Pacific Railway Company, commenting on the admission of the company to membership, "I have every confidence that those holders of our contracts, who will now have available the expert advice and farm management of the Colonization Finance Corporation, will benefit as time goes on in the same way that other farmers have done."

### Germany Protests

Aroused Over Criticism Emanating From Great Britain

Berlin, Germany.—Criticism of Germany in the British House of Commons so aroused the ire of the German government that Ambassador Leopold von Hoesch was ordered to protest to Great Britain.

The long distance wires were kept busy when the decision was being made that the ambassador must protest in the name not only of the foreign office, but of the entire government of the reich.

The ministers were described as painfully surprised because Sir John Simon, as Britain's Minister of Foreign Affairs, did not object to the criticism of Germany voiced by members of the House.

"Just imagine that any member of the reichstag raised the Irish issue on the floor—don't you suppose the German foreign minister would have called him down," a government spokesman said.

### Beer Cargo From Britain

New York.—The liner "Majestic" arrived with a consignment of 120 cases of light ale, the first British beer to be imported since 32 beer was legalized. The shipment was held by customs authorities pending analysis to determine if the beer was of legal alcohol content.

### Death Of Scientist

Lausanne.—Jules Piccard, father of Dr. Auguste Piccard, explorer of the stratosphere, died here at the age of 93. He was a professor of chemistry in the University of Basel 40 years and was widely known for his scientific works.

## Carry-Over Of Wheat Is Estimated To Be Largest In History

Ottawa, Ont.—Eagerly awaited, the Dominion Bureau of Statistics crop report last week, estimated total stocks of wheat in Canada on March 31 as 312,819,141 bushels.

This is 66,668,571 bushels more than at the corresponding time last year.

While this increase is impressive, the report explains last year's crop exceeded that of the previous year by a much greater amount.

Taking into account the amount of wheat which will be needed for use in Canada, seed grain, feed grain, etc., and estimating that 101,000,000 bushels will be exported between April 1

### Horse Breeders' Subsidy

Bonus To Assist Farm Horse Industry In Saskatchewan

Ottawa, Ont.—A bonus to owners of stallions in the province of Saskatchewan in which the Dominion and provincial governments will co-operate on a 50-50 basis, was announced by Hon. Robert Weir, Minister of Agriculture.

The scarcity of good stallions in the prairie provinces and the shift by farmers from motor traction to the use of horses has made it necessary to assist the horse-breeding industry. Because of conditions in the west with low grain prices many farmers found it difficult to finance the operations of tractors and in the spring of 1932 various horse breeders of the three prairie provinces approached Mr. Weir urging him to give to stallions which passed federal inspection.

"Each department agrees to pay 50 per cent. of grants to clubs formed this year under the federal club policy. They also agree to pay premiums to owners of all stallions which are not clubbed but that passed inspection by federal inspectors in 1932, and those that pass federal inspection this year, the statement reads.

### The Soo Dominion

New Train To Operate Between Chicago and Vancouver

Chicago.—Co-ordination of railway services to the west to eliminate duplication will be undertaken with inauguration June 1 of the "Soo Dominion," a train to travel over the Chicago and Northwestern Railway, the Soo Line and the Canadian Pacific.

The train is intended to serve the Canadian Rockies region between Chicago and Vancouver.

R. Thomson, passenger traffic manager of the Northwestern road, said the co-ordination of train service between the Soo line and the Northwestern was "new to this region and is expected to prove beneficial to both roads."

The train will operate over the Chicago and Northwestern to St. Paul, over the Soo line to Port Huron, N.D., where it will be delivered to the Canadian Pacific, Thomson said.

### H.B. Co. Report

Improvement Is Shown Over Last Year In Annual Statement

London, Eng.—Substantial improvement over last year is shown in the annual report of the Hudson's Bay Company, Limited, for the year ended January 31, although a trading loss of £225,324 is reported after the allocation of £199,381 to depreciation.

Appropriate provision has been made for losses in respect of investments and also against stock values. In addition, the report states, £106,297 has been provided against losses on sales and the disposal of properties. It has been decided to release properties which have become superfluous, although such sales may involve a book loss. Some of these properties were sold during the current year. Provision has, therefore, been made for the losses incurred and a reserve set up against further anticipated losses in this connection.

### Curb Reckless Skiing

More Stringent Regulations In Mountain Areas Are Recommended

Banff, Alberta.—Curb of reckless skiing in mountain areas was sought as a consequence of the inquiry into the death of Dr. R. E. C. Paley, English scientist, who was killed in a fall from Fossil mountain while skiing over prohibited areas.

A coroner's jury concluded its work with the finding Dr. Paley came to his death through misadventure while trying to traverse a steep snow slope on Fossil mountain. It added a rider the federal parks department draft stringent regulations governing skiing expeditions from all camps.

What action would be taken to safeguard skiers within park limits was unknown here. Regulations barring skiers from certain dangerous areas are now in force and all skiers are warned of the prohibited areas by club officials on arrival at the camps. It was expected the department at Ottawa would obtain recommendations from the numerous ski clubs with a view to implementing local regulations.

### Lower Trade Barriers

Move To Facilitate Trade Between Canada and U.S.

New York.—A despatch to The New York Herald-Tribune from its Washington correspondent, says a survey suggesting a possible basis of agreement to lower trade barriers between the United States and Canada has been completed at the United States capital.

The despatch goes on to say that an exhaustive American examination of the present commerce over the northern (Canadian) border brought Washington officials to the conclusion the United States could lower its tariffs on Canadian cattle, fish and lumber in return for Dominion concessions in customs regulations and methods of valuation, and in the Canadian duties on American coal, steel, machinery, chemicals and an impressive list of manufactured articles.

### Currency Depreciation

Secretary For Dominions Refers To Situation In Australia And New Zealand

London, Eng.—J. H. Thomas, Secretary for the Dominions, told the House of Commons he does not think the depreciation of the Australian and New Zealand currencies were deliberate breaches of the agreements signed at Ottawa during the Imperial Economic Conference. Mr. Thomas said he did not think the question appropriate for the British government to make representations on. It was suggested it was done to help trade of those countries.

### Unable To Speak

Oak Park, Ill.—The parents of Miss Patricia Maguire, ill with sleeping sickness since February, 1932, reported a fifth injection of serum, prepared from the blood of victims who have recovered from the disease, caused a marked improvement in the girl's muscular activity, but that she was still unable to speak.

### ATTACKS SOVIET BILL

Sir Stafford Cripps, former Solicitor-General in the MacDonald Socialist Government, who declared himself opposed to the emergency bill passed by the British House, which gave wide powers to deal with the Soviet in the event that the forthcoming trial of six British subjects did not end satisfactorily. The bill received its third reading with a large majority.

### No War Pension Reduction

To Effect Desired Economies Without Disrupting Present System

Ottawa, Ont.—No reduction in war pensions, but enactment of legislation which would effect desired economies without disrupting the present pension situation is under consideration by the government. Proposals that the income tax be applied to pensions and that, after a definite "deadline," no more dependents be added to the pensions list have replaced the government's move to suspend payment of pension to war-pensioners in the civil service.

The new plan is understood to have the approval of representatives of the Associated Veterans now in conference here. According to the service men, the chief merit of the new economy lies in the fact that it will not affect existing pensioners, or at all events only those whose income is sufficiently large to bring them under the operations of the income tax. The small-salaried pensioners would not be disturbed.

### Has Ancient Coin

Vancouver, B.C.—W. A. Hastings, of Winnipeg, who with Mrs. Hastings arrived here recently from the Far East aboard the Canadian Pacific liner "Empress of Canada," is the proud possessor of two copper coins which archaeologists declare are of the period of Buddha, about 700 B.C., which he found at Anuradhapura, ancient capital of Ceylon. The coins are about the size of a Canadian 10-cent piece.

### Requested To Resign

New York.—Dr. Paul Schwarz has resigned as German consul in New York. Announcing the resignation had been requested by the Hitler Government, he said: "Since the Hitler regime came into power, it was just a matter of time before the broad principles and ideals for which I stood and fought all my life would clash with the bigoted policies of the new regime."

### AKRON SURVIVORS IN WASHINGTON

Claude Swanson, United States Secretary of the Navy, is pictured as he congratulated Lieutenant-Commander Herbert Wiley and his two fellow survivors, Richard E. Deal and Moody Erwin (background), on their narrow escape from death in the Akron disaster. The men flew from New York to Washington to give their official version of the catastrophe. They were referred to by Secretary Swanson as "members of as gallant a crew as ever served in the United States Navy."

## Premier Bennett To Visit Washington For Economic Talk April 25

### C.N.R. Loan

Railway Committee Passes Bill Authorizing Sum For Requirements

Ottawa, Ont.—With a minimum of discussion, the special railway committee of the House passed a bill authorizing the Canadian National to borrow \$13,008,600 for refunding requirements for the calendar year 1933 and authorizing the minister to loan the railways \$47,941,300 to meet the railway's net income deficit for the year.

R. B. Hanson, Conservative member for York-Sunbury, was elected temporary chairman. Hon. J. D. Chaplin, Cons., Lincoln, probably will be the permanent chairman.

The committee decided to override one recommendation of the Duff royal commission on transportation. When the next meeting is held, S. J. Hangerford, acting president of the Canadian National and possibly one or more officials of the system, will be present when the annual budget is discussed. The Duff commission suggested no officials appear before the committee.

Chairman Hanson, speaking about railway officials being present, said the recommendation of the Duff commission was a "slap in the face" to the committee. Personally he believed the work of the committee last year had saved many millions of dollars for the taxpayers of the country.

### Fighting For Rates Cut

Alberta Asks Co-Operation Of Saskatchewan and British Columbia

Edmonton, Alberta.—Joint action by the three provinces of Alberta, Saskatchewan and British Columbia to secure lower freight rates between prairie points and the Pacific Coast was favored in a government resolution adopted by the legislature. The government is to endeavour to have grains of higher grades brought within the scope of the freight rate reductions allowed recently by the railways on shipments to the coast under the domestic rate.

Also, the government is to make further efforts to have the privy council give its decision upon the application which the western provinces made to the Dominion government in 1930 for reduction in freight rates.

## One Britisher On Soviet Sabotage Charge Has Admitted Guilt

Moscow, Russia.—Plea of guilty made by W. H. MacDonald to charges of sabotage, espionage and bribery laid by the Russian secret police holds good despite his repudiation of his confession.

Although MacDonald declared that actually he was not guilty and that he had been led into the confession by questioning methods adopted by police, it was learned from his solicitor, the plea of guilty still stood before the judges.

MacDonald's statement, Thursday, April 13, caused a sensation. Speaking in English and in a loud firm voice he repudiated his plea of guilty. MacDonald declared he pleaded guilty because of the methods of questioning employed by the secret police.

Moscow, Russia.—W. H. MacDonald, one of the six British engineers who went on trial on charges of sabotage, bribery and espionage, made a double admission he was guilty.

He entered a plea of guilty when the session opened. The first witness recited a detailed story MacDonald had hired him to act as a spy, and a young Briton confirmed almost all of his testimony.

The other Britons on trial—Allan Monkhouse, Charles Nordwell, L. C. Thornton, W. A. Gregory and John Cushey—all pleaded not guilty. Eleven Russian employees of the Metropolitan-Vickers Electrical Company, for which all of the Britons worked, pleaded guilty.

In London official circles MacDonald's plea did not come as a surprise. For it was considered the result of his long solitary confinement and the methods of questioning employed by the Soviet police, described by the British as "third degree" methods.

Washington.—Word that Prime Minister R. B. Bennett would be present at President Roosevelt's economic talks from April 25 to 28 inclusive, was received here from the Canadian capital.

Thus Prime Minister Ramsay MacDonald said former Premier Edouard Herriot will be in Washington at the same time as Mr. Bennett.

Mr. MacDonald sailed from England Saturday, April 15, and will be here April 21 to 28 inclusive. Mr. Herriot will reach here April 23.

United States tariff experts worked away on the difficult task of preparing for President Roosevelt the bill on which he will rely for power to make reciprocal tariff agreements with various nations.

He desires it particularly in order to be able to work with a comparatively free hand at the world economic conference in London, England, about June 15, which is dedicated in part to a reduction of barriers in trade.

France, commended President Roosevelt for assuming the leadership of a world-wide movement for recovery of prosperity.

Indication was given at the White House the St. Lawrence Waterways pact is on the calendar for consideration at this session of the United States senate, but that a resolution protecting New York state's interests in power will accompany it. The pact has been signed by Canada and the United States, but must be ratified by the Dominion Parliament and United States Congress.

Early restoration of a free international gold standard will be emphasized by the United States as of primary importance.

### Calgary Mill Rate

Property Tax For 1933 Set At Fifty Mills

Calgary, Alberta.—City council last night approved a property tax rate of 50 mills and asked the commissioners to redraft 1933 estimates on this basis.

Previously Mayor Davidson feared the rate would be set at 50, the highest in the city's history, but council last night instructed the commissioners to lower the rate by one mill compared with last year.

The other Britons pleaded not guilty to an indictment which is based upon the testimony of a woman named Kutuzova. She said they all were spies, that they had bribed Russians for information which they sent to England, and that they had systematically damaged important Russian industrial plants.

The 11 Russian employees of the company includes one woman. They pleaded guilty.

Their trial started in "October Hall," the house of the trades unions, which was guarded closely by uniformed and bayoneted soldiers stationed inside and outside the court room.

"October Hall" was crowded to its capacity of approximately 500. Spectators were admitted only by card.

Four judges, one of whom is an alternate, were seated on the red-draped table on an elevated dais, back of which stood a squad of uniformed soldiers.

The prisoners were seated in a dock to the right and behind the judges, with two soldiers, with bayonets fixed, standing immediately in front of them.

Nine defence attorneys were in court, five of them representing the Englishmen.

To the left sat sandy-haired and spectacled Prosecutor Audrey Vinsky. He had one assistant.

Monkhouse, Nordwell, Thornton, Gregory and Cushey first pled not guilty, followed by the remainder of the prisoners, who had been kept in custody. All of the British men, except MacDonald had been released on bail.

## NOTES AND COMMENTS

"Faith and hope spring eternal in the human breast."

Easter always emphasizes this statement. Christians throughout the world—Catholic and Protestant—regular or non-church goers, cannot escape the influence of the resurrection which climaxes the forty days of the Lenten season. Many of us have been in the wilderness of conflicting thoughts for much longer than the scriptural forty days in the wilderness, and have not yet a very clear conception of the way to brighter things.

Yet Easter, with its message of death triumphing over the grave, inspires all who hold on to that faith which, backed by the right kind of action, will enable them to emerge from darkness and seeming despair.

Government aids, political revolutions, economic plans, may be suggested as means whereby the world can be improved for humanity, but the way out rests mainly with every individual to do his own thinking and planning, and honestly trying to solve his personal problems.

A gentleman writing an open letter published in the Calgary Herald, commenting on a meeting he attended at Macleod which was addressed by three apostles of Russian Sovietism, recruited from workers of the Crows Nest Pass, states, in part:

"I assume the speakers trying to spread the Red doctrines are probably honest in their ideas. However, that may be, I do not think the people of Canada are ready to live under birds like Stalin or to give up their children to the state to bring up or to give up the sane decent marriage laws we are living under for the 'trial' marriages of Russia. It is not long ago that we read in the press of some forty odd thousand Kulaks with their wives and children being herded hundreds of miles into exile, driven like cattle because they had offended the August and Austere Soviet."

"In an address in Vancouver under the auspices of the District Council of the Canadian Legion, G. R. Holland declared he 'would prefer to eke out a bare existence in Canada than attempt to survive the hardships of the working class in Russia.'"

"I would suggest in closing that the three musketeers from Blairmore think over all this and if they still believe Russia to be the better country, I would remind them that there is no law here to stop them from removing to Russia. If they decide to do this I can give them the name of a farmer living outside of Macleod who was driven off his two hundred-acre farm in Russia and left for dead, but he managed to escape and came to Canada with his wife and children. No doubt he would be able to give them much information and if they have any doubts the scar he carries on his head when he was struck down with the sabre will be sufficient evidence to convince them."

ROBT. E. REARDON, Macleod, Alberta.

Conduct of "Reds" of the Crows Nest Pass during the past years, has been sufficiently demonstrated to convince those who heretofore have been lukewarm in their support of the laws of Canada just what type of government they would be slaves to under a system which suppresses the individual and foists him with the idea that he is helping to establish a government of the proletariat. A government of State dictatorship and fear will never appeal to democratic peoples. Moreover, workers who judge from their own experiences will not be fooled by the gilt on the gingerbread of Communist doughnuts.

Plans are progressing for a big community carnival to raise funds for community purposes. We should support a united movement which aims to benefit all sections of the community. It develops local pride and interest.

People of a town are much happier if they are engaged in efforts to promote the general welfare. Enthusiasm is stimulated and things are accomplished the success of which brings their own reward.

The latest proposal to convert what is now a "white elephant" into an asset is the securing of the miners hall and opera house for a community hall. This hall, a source of pride to the miners of Coleman 25 years ago, when it was opened, can again be made the centre for many enjoyable and profitable gatherings from which all local organizations, including the miners union, the original owners, may benefit. The Citizens League executive is to be commended for its efforts to provide Coleman with facilities for public gatherings which are very necessary in a community with a population of the size this town possesses.

"Doing one's duty on the side of neighborhood leads to the best results on the side of personality. If a man concentrates his affection and effort on himself, he is not doing the best, but the worst for himself. He is going to be a smooth, self-satisfied prig, or a sour old curmudgeon. Even

if he has some kind of a theology it will not do him much good. It is sure to be as narrow and hollow as an empty razor-shell on the beach."—Henry Van Dyke in "Camp Fires and Guide Posts."

## Heads C.P.R. Hotels

H. F. Mathews, General Manager, Canadian Pacific hotels in Western Canada, with headquarters at Winnipeg, has been promoted to the post of General Manager of the Company's hotel system from coast to coast, with headquarters in Montreal, according to a recent announcement by E. W. Beatty, Chairman and President. Mr. Mathews brings a wide experience gained in 35 years of service with the Company, to his new position.

Sir Thomas Horder, distinguished Physician of London, England, has stated:—

"The willing and happy worker will get more work done and do it better than the unwilling and discontented worker. It is in this direction that alcoholic beverages like beer make their great contribution to economic efficiency."

"Appetite is a function of the brain as much as or even more than of the stomach, and its importance in the physiology of digestion and nutrition is very great. It is stimulated by a moderate use of such a beverage as beer, and at the same time zest is given to life which results in larger and richer activities."

# Research Director Presents Many Striking Statistics To Indicate Upward Swing Of Wheat Prices

If history is to repeat itself, the all-time "low" in the price of wheat and probably of the general commodity price level has been reached.

This was the contention of Major H. G. L. Strange, director of the research department of the Seaside Grain Co., Ltd., Winnipeg, who recently addressed a meeting of the general membership of the Regina Board of Trade.

Major Strange presented many striking statistics to indicate wheat should climb to 67 cents at country elevators as the surplus disappears.

Major Strange based his contention of the all-time price level having been reached "on the fact that what is occurring today occurred following wars of other years," and also of the report that the index number of wholesale prices rose from 63.6 in February to 64.4 in March, according to a statement issued by the Dominion Bureau of Statistics.

Displaying a chart showing 500 years of wheat prices, collected by George Broomhall, eminent wheat statistician of Liverpool, England, the speaker said it could be noticed the price of wheat was ever fluctuating as it marched through time, but at three periods from 1400 to the present the price fluctuated very violently, both up and down, in periods corresponding to the three great world-wide wars—the 30 years' war in Germany, the Napoleonic war and the recent World War—each of them over 100 years apart.

"The length of time these fluctuations have taken to rise and fall have been substantially the same during each of the three wars. From the high price of wheat in the 30 years' war in Germany to the bottom of the decline was 11 years, in the Napoleonic war it was 10 and one-half years, and in the autumn of 1931, the eleventh year after the high price of wheat in the Great War, the decline was arrested in British sterling at Liverpool," the speaker said.

The price of wheat will rise at the country elevator two or three cents as the pound and dollar come closer together, Major Strange continued, adding that 10 cents should be the general commodity price level rise back up to the pre-war level. It would also rise to the extent of the additional 26 cents a bushel, altogether to a price at the country elevator of 67 cents, should the surplus entirely disappear, the speaker claimed.

"I do not hesitate to say," Major Strange commented, "that all the economic forces that impelment themselves upon wheat are tending to push back the price to the 1913-14 level, but perhaps not higher."

Some of the "fallacies" people within the trade have felt obliged to oppose, the speaker said, were such as the wheat board, an excise tax on wheat for making bread in Canada, reduction of wheat acreage in Canada and other proposals to replace the present methods of handling and marketing grain in the Dominion.

"The futures system of marketing has been, and is being, violently attacked by those who favor a wheat board," the speaker continued, adding, "they carefully refrain, however, from explaining what a wheat board could do that the present system is not already doing. They speak vaguely of differentiating between returning the world's price of wheat and returning the world's value of wheat. A distinction absolutely impossible to define, because they are one and the same thing as far as money is concerned."

Some stated the futures system of marketing had no interest in discovering new markets and that perhaps a wheat board or some other organization could do this, Major Strange continued.

"The fact is today that there are literally hundreds at work exploring ever possible wheat market in the world to dispose of Canadian grain," the speaker said, "all experienced men, who are continually extolling the virtues of Canadian grain and endeavoring to promote its use."

"Much has been said about untapped markets for wheat in China. This again is a fallacy," the speaker maintained. "The true facts are that China produces on the average twice as much wheat per year as does Canada, and in addition, four times the volume of rice that we do wheat in Canada, and that 400,000,000 people in China consume more cereals in the form of rice and wheat per head than do the people of Canada."

W. N. U. 1990

ada, so it is apparent there is not much evidence of starving millions and of unlimited markets. As a matter of fact, people in China are as well fed as we are. Starvation only occurs in certain districts with no communication, that suffer from drought and occasional great foods.

"It is often forgotten that wheat and other commodities can only be purchased by the people of a country in proportion that others are willing to purchase in turn their products or the goods they manufacture," Major Strange added. "The Chinese market for our wheat and other goods will expand as we or the other people in the world are willing to purchase Chinese products and goods. Money as such, hardly enters into the question at all."

Reduction of wheat acreage by exporting countries by common agreement, would make European buyers suspicious, Major Strange contended, and they would tend to increase their own acreage and retain the tariffs and wheat quotas now existing.

By Ruth Rogers

**GRACEFUL FOR THE MATRON**  
Decidedly chic and slimming. Delightfully becoming to the larger figure is a dress of the type presented for today's pattern.

The smart, ruffled neckline is a particularly helpful feature to cut the bodice broad.

The skirt panelled at the back with a bias yoke effect and vertical seaming down the center-front, are most slimming.

And how distinctive and smart you'll feel in this attractive navy blue crinkly crepe silk dress. For its trim, plain white crepe combined with a navy and white crepe print.

Style No. 533 is designed for sizes 36, 38, 40, 42, 44 and 46 inches bust.

Size 36 requires 3 1/2 yards 39-inch, with 1/2 yard 39-inch contrasting.

Its small cost will amaze you.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

**Improving Nature**  
The chemical process used by nature to make coal from peat has been speeded up. What nature takes millions of years to do may be done by scientists in three months. A scientist in Cincinnati, O., has isolated the coal germ and with this bacteria can inoculate a peat bed so that it will turn into coal in a short time.

BARRIED SHAFTS OF WIT LOST G. B. S. ADMIRERS

The rapier-like wit for which he is famous was the cause of losing George Bernard Shaw, celebrated author and dramatist, two of his most ardent admirers during his recent visit to Hollywood. En route to San Pedro, Shaw stopped off at the movie capital to see at first hand how the great industry is operated. During a tour of the sets he was introduced to a number of famous film stars, and it was at these introductions that G.B.S. gave his well-known wit the work-out that lost him two notable fans. First, the visitor bluntly inquired of Alice Brady "why a girl with a nice face like yours wears a hat like that." That placed Miss Brady among the anti-Shawians, for while a woman will forgive many things, criticism of her clothes—her hat in particular—is not one of them. Shaw loosed his next barb when lovely Ann Harding was introduced. Miss Harding remarked that she was soon to play in one of Shaw's plays—"Captain Brassbound's Conversion." Whereupon Shaw inquired where she had played the part previously. Miss Harding said, "a little town near Philadelphia," and was astonished when the dramatist announced: "I'm sure it must be a practical performance"—and as a practical performance is the production of a play without payment to, or permission of the author, Miss Harding retired to her room in tears.

## World's Seaplane Record

Italian Aviator Makes An Average Of Over 436 Miles Per Hour

"Red Bull," powerful little speed plane pointed entirely red, broke the world's seaplane speed record recently with Francesco Agello at the controls. For five laps over Lake Garda, Italy, Agello made an average of 426.5 miles an hour.

Previous record, set by Lieutenant George H. Stainforth, of England, in 1921, was 408.2.

Agello reached a maximum speed of 432.3 on his fourth lap, and his minimum was 421.66 in the third lap. Air officers said a new engine would be installed in an attempt to reach a speed of 700 kilometres or 437.5 miles.

Agello was a member of the Italian Schneider cup team in 1929. His successful attempt climaxed a series of such efforts at the high speed airport here in which several craft were lost.

## WII Review Income

A review of total incomes received by pensioners in the government service will be made, and if any are considered excessive, the salary, but not the pension will be reduced. This, it is intimated, was the position of "government as outlined by Mayor W. J. Stewart, of Toronto.

Just when farm boys are adept in adjusting carburetors, the old horse stages a comeback and they've got to learn to knot a halter.

## Good Business For Germany

Supplies Horse Meat To Paris Where It Is Delicacy

Germany has one method of paying her war debt to France—that is, in horseflesh. Horse meat is a Parisian delicacy no less than frogs' legs, and last year according to official municipal statistics, 31,913 horses went under the butcher's axe. Turned into chops and steaks, they are sold in "boucheries chevalines," horse butcher shops with a horse head as a shop sign. Many of the horses that are roasted for Parisian gourmets are animals that have outlived their usefulness in the shafts of cabs on the other side of the Rhine. French doctors say that prejudice against horse meat is unjustified. It has splendid medicinal qualities and is especially valuable for anemic persons.

## Exhibit From Alberta

Involving an expenditure of \$5,000, an Alberta grain exhibit is planned for Regina World Grain Show. Hon. George Hoadley, Minister of Agriculture, said if the report Manitoba intended expending \$5,000 on a grain exhibit were correct, this province would take similar action.

"Waiter, would you be kind enough to ask the Manager to send a smaller waiter? My husband wants to complain of the food."

Demand for automobiles in Argentina in January was greater than the supply.

"No, I don't 'old with 'em, Ma'am. More than one friend of mine 'as 'ad the broad 'an' butter took out of their mouths by them things."—The Humorist, London.

# A New Process For Sprouting Grain To Turn It Quickly Into Fresh Fodder For Cattle

## Watching For Contraband Shipments Of Munitions

Close Check Ordered On Ships From B.C. To Orient

Customs officials at British Columbia ports have been ordered to make a close check for contraband shipments to the Orient during the next few weeks. Hostilities in Japan and the prospect of prolonged fighting have increased the demand for war materials, and it is suspected that munitions have been sent across the Pacific in the guise of ordinary merchandise.

There is a good deal of smuggling going on, according to investigators. Five hundred rounds of ammunition were recently discovered on the liner "Empress of Japan." This was shipped in boxes labelled with a bogus description and would have passed through undetected had it not been for the customs officials' special vigilance.

Of course, there is no embargo on war materials leaving the country, provided they have been purchased in a legitimate way and all other legal procedure has been observed.

For instance, the Japanese government recently completed purchase of a large quantity of steel track which has been lying idle at Port Mann ever since construction of the Canadian Northern Railway was suspended many years ago. This material will probably be used in the manufacture of munitions, but is considered a strictly business transaction.

Consolidated Mining & Smelting Company at Trail is making regular shipments of zinc to the Orient and there is but little doubt that most of it is used in the making of shells.

## A Chinese Landlord

Cancelled Payment Of Back Rent Owed By Unemployed Man

Somewhere in the city of Halifax there is a Chinese landlord with more "heart" than some of the English members of the rent-collecting fraternity.

In the northwest end of the city there is a family, the head of which has been out of work for a considerable period of time, with the result that they are now low on accounts and short of cash.

They live in a flat rented to them by the Oriental Landlord, who, along with other creditors, has been waiting for his money for several months. He called several times for the money and noted that each time the condition of the family seemed to be getting worse.

He called again recently and handed the tenant an envelope. The father of the family took it with a sinking heart, expecting, on opening it, to find a notice of eviction, which would throw him and his loved ones out on the street.

After the departure of his Chinese landlord he plucked up courage enough to open the missive to discover to his joy that it contained, not an eviction notice, but a receipt bill for the total of his back rent, amounting to more than \$150, wiping out the debt in its entirety.

Needless to say, any feelings of animosity that this particular family might have entertained toward the yellow race was eradicated by this act of unsolicited kindness.

## Checked Up On Doctor

Boy In Montreal Hospital Proved Fallacy Of Old Speech

Roy Victorin, a boy in the Montreal, claims to have found the original of "the child who notices things." His name is George Ross, aged ten. George arrived at the hospital to undergo a slight operation. Before the anaesthetic was administered, the doctor in charge made his usual little speech to the patient, assuring him that there would be no pain and that the whole affair would be matter of a minute.

George's first remark on coming out of the ether was directed in a reproachful tone to the doctor:

"It was seven and a half minutes," he declared. A clock near the bed which George had studied last thing in and first thing out enabled him to check the doctor's veracity.

People of Vienna, Austria, are eating less food per person than a year ago.

Remol, an anti-knock for gasoline, is present in the waste gas of Turner Valley.

A new process for sprouting grain within a few days so as to turn it into fresh fodder for cattle has been brought to the attention of German farm experts by Dr. Spangenberg, who believes that it will revolutionize cattle breeding by permitting industrial manufacturing of fodder.

The new process proposed by Dr. Spangenberg and recently tested by the German Agricultural Society is briefly as follows: The grain that is to be sprouted is spread upon large perforated iron sheets or riddles in a layer of about one inch. The riddles in turn are placed into open wooden cases of the same size, so that they are resting in the middle of the cases. By pouring a liquid over the grain at regular intervals a rapid growth of light green sprouts is produced which may be harvested after ten to fifteen days, when they have grown to a height of about ten inches.

Dr. Spangenberg did not reveal the nature of the liquid used in his experiments and to which he attributes an especially quick growth of the sprouts and their—according to him—abnormally high nutritive value. Authorities on seed sprouting of the German Agricultural Society believe that this liquid is composed of phosphoric acid, potassium nitrate, potash and lime.

Similar mixtures have already been used for some time in experiments of this kind by the society. When testing the liquid applied by Dr. Spangenberg, the experts of the society applied at the same time their own mixture as well as pure water to other riddles, filled with grain. It was found that, as to the rapidity of growth, there was not much difference in the three cases.

The great advantage of this process is that it enables the farmer to introduce some variety into the menu of the cattle, especially in Winter, when no fresh fodder is available. It, moreover, seems to have a beneficial effect on the milk production. Dr. Spangenberg maintains that tests in Liebeck have shown recently an increase of the milk production by 18 to 22 per cent. after feeding sprouts instead of grain only. Experts of the agricultural society, however, expressed some doubt as to the feasibility of fattening cattle, hogs and other animals by feeding them these sprouts.

This, they declared, could be achieved only at a considerable cost, which, in view of the relatively small value of fresh meat, would not pay. The reason why it would be more expensive to fatten cattle by feeding them sprouts than by feeding them ordinary grain is simple. Quite aside from the cost of the liquid used to sprout grain, the process sprouting leads to a loss of nutritive value, caused by the lack of sunlight and the resulting inability of the sprouts to accumulate carbohydric hydrogen. Instead, the sprouts, biologically speaking, do nothing but accumulate water, which builds up a larger body compared to the small grain out of which it is developed.

The exhausted hydrogen contained in various forms in the grain are broken up by the sprout in the process of growing, and while the hydrogen is retained the carbon parts are emitted by the leaves in the form of carbonic acid.

The sprouts are therefore of real value chiefly to chicken farms and dairies where a permanent supply of fresh, green fodder is desirable and where the high value of the product warrants the additional expense. It is pointed out by farm experts. The sprouts, if harvested at the right time, represent an excellent fodder. According to Dr. Spangenberg, the cost of 220 pounds of sprouts produced from about fifty-five pounds of grain is little more than 20 cents.

## Last Lord Marcher Dead

Was Only Holder Of That Title In United Kingdom

Sir Martine Lloyd, head of the old, Welsh family of direct descent from the royal houses of both England and Wales, died April 4, aged 81. He was the only Lord Marcher in the United Kingdom, Henry VIII. having destroyed the titles of every other Lord Marcher. He exercised his rights right up until the present time, having appointed annually, under his hand and seal, the Mayor of Newport, Pen, in the Barony of James. Owning more than 100,000 acres in four different counties, Sir Martine was perhaps the most popular landowner in Wales.

Bees have a special liking for blue-colored flowers.

## WORLD HAPPENINGS BRIEFLY TOLD

The Salta Observatory reported that volcanoes in the central Chilean mountain region were moderately active, with indications of intense activity in the near future.

Prof. Albert Einstein, who renounced his German citizenship because of anti-semitism in Germany, has accepted an invitation to become a member of the faculty of University of Madrid.

The French naval air force was ordered to help maintain order along the frontier of Djibouti territory in French Somaliland, Africa, where several rebellious Abyssinian tribes threatened trouble.

The honor of being the first woman professor in Scotland has fallen on Miss Cecilia J. MacFaggart, of Glasgow, who has just been appointed to the chair of Biology in the Anderson College of Medicine, Glasgow.

Calgary school board will take court action against parents who keep their children from attending school in protest against the city reverting to the summer unemployment relief schedule.

Wyoming has lost a titled ranchman and England has gained an earl. Oliver Henry Wallop, 72, renounced his allegiance to the United States, placed his chaps in mothballs and became the Earl of Portsmouth, the 99th ranking peer of England.

Alberta will have only two district courts if an amendment to the District Courts Act, submitted to the legislature, is approved. At present, there is a district court in each of the 16 judicial districts of the province.

Poultry raisers in Western Canada are finding a market for their products in Great Britain. In the last two months of 1932, 1,500,000 pounds of fresh Saskatchewan and Manitoba turkeys were shipped to British markets.

Arthur Bierweg, of Stettin, Alberta, has been awarded the Elizabeth Imrie memorial scholarship for 1933 at the University of Alberta. This entitles the holder to journey to Geneva for a summer course at the Zimmer School of International Affairs.

### A Cold Summer

Prediction That the Sun Will Show Less Heat For The Next Two Years

A prediction the sun will be colder for the next two years, with the possibility the earth will be affected in a way as yet unknown, was issued by Dr. Charles G. Abbot, secretary of the Smithsonian Institution.

Dr. Abbot already has had some success as a predictor of the sun's "weather." In 1930 he forecast two warm years on the sun, which in general has been fulfilled. Measurements have shown the sun has been giving out considerably more heat than normal since then.

Dr. Abbot's prediction is based on long study of periodical rises and falls in the sun's heat.

### Protection For Planes

Ice Umbrella Will Shield Hub Of The Propeller

An ice umbrella for propeller hubs, a device said to overcome the last remaining ice peril for aeroplanes, was announced at Cornell University.

This umbrella shields the hub of the propeller.

The danger is not from the ice on or directly in front of the hub, but the danger is from the ice spreading in both directions outward along the whirling blades.

"Planes of the Royal Dutch Air Lines flew 1,919,505 miles last year.

W. N. U. 1900

### Depression Has Hit

#### Court Interpreters

Lack Of Foreign Weddings In Montreal Affects Their Income

Interpreters in the recorder's court at Montreal, are blaming a lack of weddings in Montreal's foreign colony for their reduced earnings lately. There was a time when weddings and the celebrations following them were numerous and quite often those who celebrated too much found themselves explaining the reason for their actions in court. It was a poor day when that did not bring forth five or six cases for the interpreter to take part in, and, of course, the more cases the larger his income. Now many people are out of work and cannot afford to get married. Those who do, fail to celebrate, making appearances in court rare, complained one man who had earned only \$6 in one week.

### Argentine Delicacies

One Called "Palmito" Entails Cutting Down Palm Tree

The visit of the Argentine Mission to London has already had its influence on restaurants. Many are specializing in dishes and delicacies peculiar to South America. One of these is "palmito," an hors-d'oeuvre very popular with the Prince of Wales. He first tasted it in Buenos Aires three years ago. Its preparation entails cutting down a palm tree. The heart is then cut into cubes, soaked in oil, and served with lemon, anchovies, and sliced olives.

### CHARMING DAY WEAR IN JUMPER MODEL—AFFECTS PRINCESS LINES

Loveliness for daughter or for mother.

Jumper dresses are so smart! Of course you'll want this princess model, so youthfully charming.

It's carried out in navy blue crinkly crepe silk. The guimpe is maize plaided organdy. It's cunning the way it buttons down the back with tiny yellow ball buttons.

Pin tucks make the waistline fitting of the jumper. And incidentally, the jumper is a one-piece affair. Made in a jiffy!

A printed crepe silk would be effective for the jumper with the guimpe of plain toning crepe.

Style No. 554 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust.

Size 16 requires 2½ yards 35 or 38-inch, with 1½ yards 39-inch for blouse.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

### How To Order Patterns

### Disease-Resistant Wheats

Small Quantities Of Seed Are Now Made Available

Highly disease-resistant wheats have now been produced that are perfectly satisfactory from the standpoint of quality and agronomic behavior, the associate committee on field crop diseases announced at the conclusion of its fifth annual meeting in the Dominion Rust Research Laboratory in Winnipeg, Dr. C. H. Goulden, of the laboratory, presented the report.

"It seems that out of 33 strains in the co-operative tests of 1932 at least six are suitable for distribution to farmers, but only small quantities of seed are available at present, and it will take two seasons to increase the quantity available to the required point," the statement read. "In the meantime, commercial milling tests will be made on the strains selected and further field tests, with a view to reducing their number to two or three adapted to the varying conditions to be found in the wheat-growing area.

"Every effort will be made from now on to increase the seed of these wheats as rapidly as possible."

### Recipes For This Week

(By Betty Barclay)

#### CHOCOLATE PRUNE CAKE

- 2 cups cooked prunes.
- 1½ cups granulated sugar.
- ½ cup shortening.
- 2 1-ounce squares bitter chocolate.
- 3 eggs.
- 2½ cups flour (pastry or cake).
- 4 teaspoons baking powder.
- ½ teaspoon soda.
- 1½ teaspoon salt.
- 1 cup milk.
- 1 teaspoon vanilla.

Remove pits from prunes and cut prunes into small pieces. Cream sugar with shortening. Melt chocolate over hot water and add to creamed mixture; mix, add well beaten eggs and milk again. Sift flour with baking powder, soda and salt and add alternately with the milk, a small amount at a time. Add prunes and vanilla and beat thoroughly. Pour into three greased cake tins and bake 25 to 30 minutes in a moderate oven (375 degrees Fahrenheit). Put layers together and spread top and sides with chocolate butter frosting.

#### ECONOMY MEAT PIE

Cut left-over meat and vegetables into uniform medium-sized pieces. Mix with an equal amount of medium cream sauce (1 cup milk, 2 tablespoons flour, 2 tablespoons butter). Season well with onion, salt, pepper, etc. (Use left-over gravy with cream sauce if possible). Cover with a thick pie crust, biscuit dough, or layer of left-over mashed potato mixed with milk (one slightly beaten egg can be added to potato if desired). Bake in a moderate oven until the crust is cooked, or until browned and heated through if potato is used.

England's oldest free church building, the Horningham Congregational Church, which still hosts a 30th anniversary.

### ON THE SEE-SAW OF DESTINY

The "ups and downs" of life were never better illustrated than by this picture. Chancellor Adolf Hitler, once a humble house-painter and now Dictator of Germany, is shown chatting with former Crown Prince Wilhelm who was in line to rule the country before his father's abdication, and who is now an ordinary citizen. They are pictured at Potsdam just before the opening of the special session of the Reichstag at which Hitler demanded and was granted dictatorial power.

## Powerful Flashlight FREE for POKER HANDS!

ONLY Four complete sets of poker hands will secure you this handy flashlight (complete with batteries). Useful in the car or in the house and but one of the many valuable gifts given in exchange for Turret Poker Hands.

It pays to "Roll Your Own" with **TURRET FINE CUT** CIGARETTE TOBACCO. SAVE THE POKER HANDS!

Sun ripened mellowness... rich aroma... extra satisfying flavour. That's the Quality you want in cigarette tobacco and that's the Quality you get in every pack of Turret Fine Cut. And there's genuine economy too. You can roll at least 50 cigarettes from a 20¢ package.

### Barter Party Is Latest

Social Event Held Recently In Buffalo

Proved a Success

Bartering has reached the stage of social function in Buffalo, not merely because adapting amusement to hard times is a fashion of the day, but also because there is fun in novel experiences.

### To Take Precautions

Parts Of Saskatchewan Threatened With Hopper Plague

Early precautions against the outbreak of a grasshopper plague in parts of Saskatchewan are urged upon farmers by officials of the department of agriculture.

Severe outbreaks of the plague are expected in southeastern Saskatchewan in the Estevan area, comprising a semi-circular tract of land including the towns of Torquay, Hinton, Wilmar, Nottingham and Carleton Place. The badly affected area also takes in a longitudinal strip up the centre of the province, starting in the south at Assiniboia and stretching far north in a narrow area to the southern boundary of Saskatoon. Lesser areas are located at Neipath, Piapot and Scipre.

Czecho-Slovakia has placed taxes on radio tubes and electric light bulbs.

Eli Beishorn, the German airwoman will fly from Berlin to Arabia.

### SUNDAY SCHOOL LESSON

APRIL 23

#### CHRIST APPEARS TO SIMON PETER

Golden Text: "Because I live, ye shall live also."—John 14:19. Lesson: 1 Corinthians 15:1-8, 20-26. Devotional Reading: 1 Corinthians 15:31-58.

#### Explanations and Comments

The Historical Evidence Of the Resurrection Of Christ, verses 1-8.—"My brothers, I declare unto you the good tidings which I preached while I was with you at Corinth," Paul wrote his church there. The Corinthians were not in danger of denying Christianity, but of not accepting its true teachings as Paul had proclaimed them, and so he continued: "The good tidings which you received, to which you subscribe, if you remain true to your preaching—unless you believed in vain."

"If I believed in immortality as you believe in it, as you profess to do, I should live a far better life than you appear to live. I should strive more earnestly and bear more patiently. I do not think I should ever be troubled with a fear, or worried with an earthly burden. I think I would be all sunlight and joy if I believed as you do in eternal things—in resurrection and a life beyond in which all things would be made right."—Harriet Martineau.

Most important of all the good tidings which I declared unto you, which I should live a far better life than you appear to live. I should strive more earnestly and bear more patiently. I do not think I should ever be troubled with a fear, or worried with an earthly burden. I think I would be all sunlight and joy if I believed as you do in eternal things—in resurrection and a life beyond in which all things would be made right."—Harriet Martineau.

"Oh, vanquished grave of Jesus whose chill could work no change upon His heart! Oh, deep, deep grave of Jesus whose depths can hide a world's wrongs!"—Ralph Connor.

That He appeared to Simon Peter (Luke 24:34); to the Twelve (Paul keeps the symbolic number, though Judas was dead); to more than five hundred at once; (usually identified with Matthew 28:7, 16-20), some of whom are dead, but the greater number are still living (and you can have their direct testimony, if you wish). Then He appeared to James, the brother of Jesus (Acts 1:3; Gal. 1:19); then to all the apostles, just before the Ascension (Acts 1:4). And last of all, as to the child unborn, He appeared to me also, in the way to Damascus (Acts 9).

### Celebrating Its Jubilee

Alexandra Club Was Started In London By Women

The Alexandra Club, oldest of women's clubs in London, is about to celebrate its jubilee. It was launched in a day when women of good social position could not stay at hotels unless they were extraordinarily chaperoned. As to eating a meal in the public dining-room of an hotel or restaurant in 1883, it was simply not done by "gentlewomen." The Alexandra Club was started by a bold band of pioneers, who were asked by those restrictions. So carefully was it conducted that no man was allowed to enter the premises. To this day men are only tolerated at tea-time.

### Made Success Of Hobby

A striking record was made by Constable Carl F. Wallden, of Stockholm. He recovered 21,000 lost or stolen bicycles in his thirty-two years of service. He has just retired on a pension. Finding missing wheels was a hobby with Wallden.

Dill, a herb used in making certain pickles, grows wild in some parts of British Columbia.

### Chose the Better Way

Hospital In India Fitting Memorial For Late Sir William Wanless

Sir William Wanless, considered to have been the most famous surgeon in India, is dead in California. Native Canadian, he went to India years ago under the auspices of the Presbyterian Church in United States. There will be no need to erect a memorial to him; the Presbyterian Hospital at Miraj, India, tells the story better than anything else can do.

He had not been in India long before the people turned toward him. He was as much a missionary as a surgeon. Those who were wealthy came, and it is said that Sir William could have made himself rich in his profession.

It is recorded that he retained only his salary as a missionary, turning over his fees to build a 250-bed hospital, also a medical school and five outpost stations. More than that he maintained the staff of 125 working in the hospital, paying their salaries, and due to his efforts there was brought into existence a leper sanatorium and a tubercular hospital in the vicinity.

Had this man of God been concerned about building his private fortune he could have done so. He could have heeded out the needy folk who paid him nothing; he could have allowed the lepers to continue standing to one side, victims of a living death. He could have so chartered his course that he might have retired immensely wealthy, and with his retirement his work would have ceased.

Sir William chose the better way. Today the doors of the ample hospital are open; the work of caring for sick folk goes on. In the days of his strength he used his powers to create something which would live long after his skill and direction had been removed.

It makes good reading; there is much that is entirely wholesome about the outlook and consecration of such a man. This country would be rich indeed if it could keep on producing men of similar vision.—St. Thomas Times-Journal.

### Sharing Large Houses

Fashion Introduced In London By Duke Of Connaught

In these hard-up times people in London are trying to solve the problem of being saddled with houses too large for them by dividing them into family flats. Instead of young married couples taking small houses in Chelsea or elsewhere, they install themselves in part of the parental home with separate housekeeping of their own. The idea was started by the Duke of Connaught, who gave Lady Patricia Ramsay, an "apartment" in Clarence House when she married.

### Has Bullet-Proof Car

Viscount Makoto Saito, Japan's elderly Premier, has bought a large armored American automobile. It is bullet proof against small weapons. The machine, costing \$6,000, is a closed limousine with bullet-proof glass. Threats against the Premier's life have been increasingly frequent. His two predecessors were assassinated by nationalist fanatics.

"What an appropriate-looking hot-dog stand!" "Yes; it's made of dogwood and covered with bark."

The first post office in Calgary, Alberta, was opened in 1852.

Mrs. Marcellis of Calgary was visiting Mr. and Mrs. T. Bowen this week.

Mrs. J. Thomson and son of Corbin, are visiting Mrs. J. A. Price for a few days.

Marie Olson of Midnapore is spending the Easter vacation as the guest of Mrs. I. Neilson.

Misses Margaret and Ethel Dunlop are visitors to Calgary this week.

### LOCAL AND GENERAL

Mr. and Mrs. Vernon Erickson of Warner spent the week-end the guests of Mr. and Mrs. Frank C. Creighton.

Mr. and Mrs. T. Holstead spent the week-end visiting in Macleod and Lethbridge.

Mr. and Mrs. Ed. Bernard of Lethbridge were visitors at the week-end with the latter's parents, Mr. and Mrs. Wm. Fraser.

Mrs. K. McDonald of Lethbridge spent Easter holidays at the homes of Mr. and Mrs. J. Devine and Mr. and Mrs. C. J. Devine.

Mrs. C. J. Devine is spending a week visiting friends in Calgary, her daughter Peggy accompanying her. Mr. Devine drove up last week, and returned at the week-end.

Coleman young people home for Easter holidays include Mildred Huggins, Lena Godfrey, Gladys Moores and Steve Ondrus from Calgary normal school.

Madie Bowen was admitted to hospital on Thursday evening last for an emergency appendix operation. She is making rapid progress towards recovery.

Tony DeCecco got a surprise when he went to feed the chickens. A big strange cat disputed his entry into the chicken house, and bit him savagely on the hand, necessitating his making a visit to the doctor.

The Colonist of April 8th contains a picture of the members of the B. C. legislature. Our Tom appears in all his glory, wearing a silk hat, evening clothes with spats and cane. He looked out prosperous altogether, representing Fernie—Fernie Free Press.

Rev. Fr. Speckmayer has suffered from a severe cold for the past week, preventing him from holding Easter services. A priest from Calgary came down and the services were attended by a large number of communicants.

Cold weather and snowstorms did not dampen the joyous spirit of Easter, for many were seen in bright new clothes, and all churches report splendid attendances and keen interest in the services.

Mrs. G. Hope, D. D. P. of the Rebekah lodge, visited Blairmore and Bellevue this week.

Dr. Borden returned from Edmonton last evening. Mrs. Borden is remaining there for a few days.

Mrs. Geo. Jenkins and baby daughter left on Friday for Seeb, Alta., where they are to be the guests of Mr. and Mrs. D. Jersey for the next few weeks.

Mr. V. A. Bowes, assistant district passenger agent, C.P.R., Calgary, was a business visitor in the Pass towns on Wednesday, and made a friendly call at The Journal office.

Word was received yesterday of the critical illness of John Watson, formerly in charge of Fan 98 of the International Coal Co., now living at Creston. His son passed through on Wednesday morning's train from Calgary, having been called to his father's bedside. A later report states he has passed away.

### St. Alban's Church Notes

Services for Sunday, April 23 (Low Sunday)—11:15 a.m., morning prayer and address; 12:30 p.m., Sunday school. Service at St. Luke's, Blairmore, at 7 p.m.

### IMPORTANT TO REMEMBER

We will have a special showing of Spring coats and dresses for Friday and Saturday.

Boys!—Spring is here, and so are your running shoes. You'll find the right size and the right price at F. M. Thompson Co., Ltd., Blairmore.

### CARD OF THANKS

Henry Tiberghien desires to thank the doctors and the nursing staff of the military hospital, for their kind services, and to all who by their visits and in other ways extended him kindnesses which were appreciated.

### Fine Concert By Young Orchestral Players

Program Gave Delight to Audience and Return Visit is Looked For Later in Year

A very fine musical treat was the program given in the opera house last evening by Blairmore and Hill crest string and concert orchestras and pupils of Miss Madeleine Chardon, in which several Coleman pupils of Mr. W. H. Moser and Miss Chardon took part.

Mrs. E. E. Cranston, of Bellevue, soprano, sang Tosti's "Good Bye" and "Little Irish Girl," the accompaniments being played by Mr. Albert Christie.

The orchestral selections, conducted respectively by Mr. J. E. Upton and Mr. Moser, were indeed highly creditable to this group of young players of the Pass towns and their instructors. Next week they will compete in the musical festival at Cranbrook.

Time does not permit of a detailed report of the concert, but it is planned to give a similar program later in the season, when a much larger audience will greet these orchestras.

Mayor Pattinson ably filled the role of chairman, and complimented the entire party on their splendid performance.

John Petaszko, a Coleman boy who has made remarkable progress as a violinist, gave two solos.

### NOTICE COLEMAN CITIZENS LEAGUE

ALL CITIZENS who are interested in Football, Baseball, Softball, Basketball and all athletic sports, and will donate their spare time towards putting the sports field in condition for the proper conduct of the sports mentioned, are requested to be on the sports field on MONDAY, APRIL 24, at 9:30 a.m.

As this object is worthy of the best efforts of any community and must appeal to all lovers of sports, as it provides a better opportunity for the youthful element to take increased interest in healthy sport, the League Executive is confident the appeal will meet with a hearty response.—D. Gillespie, chairman, Carnival and Sports Committee.

### Lessons in Persistency

Many years ago we learned a lesson from a typewriter salesman. He called at the office every time he came to town, without making a sale. He was asked why he persisted in calling. His reply was that the company he represented made it a rule that their salesmen must make a stated number of calls every day in the towns they visited, as sales results, based on the law of averages, proved that it paid. There is a lesson in this for everyone who sells to the public.

Another instance of persistency in selling was that of an advertising salesman in Calgary who for over ten years included a non-advertiser in his list of calls. The office regarded the non-advertiser as hopeless, when one day he decided to try a small space, and today he is a confirmed believer in advertising and has increased his daily space to far greater proportions than the advertising salesman ever dreamed he would be able to sell him.
